

A270 PT Record Assignment

This assignment will provide you with practice for the Overdub Practical Test. Using the PT Record Assignment session on the 405 computer you will pair up. One person will record the other playing tambourine (or other available percussion instrument) on the session. This will be saved on the 405 computer in the Student Files folder. The session must be named "PTRecord_LastFirst" and be in a session folder with all audio files for the tambourine track inside the Audio Files folder of this session folder. The pair will then switch and the other student will record. Each student must have a separate session file/folder.
